

# LAB REPORT

FROM THE DE LORENZO LABORATORY & EVALUATION

## nova color colour stain remover

Colour Stain Remover is a pleasant and gentle lotion, formulated with Australian Eucalyptus oil, to assist in the removal of stains on the skin caused by hair colourants.

### DIRECTIONS

Dampen a cotton ball with De Lorenzo Stain Remover and gently remove excess colour from hairline, nape and ears as soon as application is completed. Early removal before drying of the stain is recommended.

### KEY NATURAL INGREDIENTS

#### Eucalyptus Oil

Eucalyptus Oil is a natural solvent which is safe, stable, biodegradable and effective at removing skin staining associated with hair colouring. The main active ingredient in Eucalyptus Oil is eucalyptol which also provides effective anti-bacterial properties.

#### Castor Oil

The seed of the Castor Oil plant (Ricinus Communis) is the source of Castor Oil. A widely grown plant, Castor Oil is used for cosmetic, medicinal and industrial applications.

### INGREDIENTS

Water, Denatured Alcohol, Oleic Acid, Laureth-8, Sulphated Castor Oil, Ethoxydiglycol, Benzyl Alcohol, Eucalyptus Oil, Peg-40 Hydrogenated Castor Oil, Aminomethyl Propanol, Citric Acid, Phenoxyethanol (and) Methylparaben (and) Butylparaben (and) Ethylparaben (and) Propylparaben, Fragrance, Vitamin E.
