

LAB REPORT

FROM THE DE LORENZO LABORATORY & EVALUATION

novaclean anti-bacterial hand cleanser

De Lorenzo's Novaclean Anti-bacterial Hand Cleanser is an anti-bacterial gel infused with Lemon scented Tea Tree Oil to provide a cleansing action without the need for rinsing. It's ideal for sanitising hands between salon services as it has been efficaciously tested and contains the recommended level of Alcohol, for it to be effective as an antibacterial skin cleanser. Contains Aloe Vera and Vitamin E to soften and protect the skin and leaves the hands feeling fresh, clean and sanitised.

KEY NATURAL INGREDIENTS

Lemon Scented Tea Tree Oil

Pure Australian Lemon Scented Tea Tree Oil is considered to be an anti-microbial produced by steam distillation (water) from the leaf of the Leptospermum Petersonii tree. Applications include acne, hand wash, insect repellent, hair care, and a natural preservative.

Aloe Vera

When used in cosmetic and beauty products, Aloe Vera offers incredible benefits for the skin and is best known for its soothing and calming properties. Aloe Vera has a chemical make up similar to that of keratin and it rejuvenates the hair with its own nutrients, giving it more elasticity and preventing breakage.

Vitamin E

Considered an anti-oxidant superstar, research points to Vitamin E providing protection from oxidative damage preventing skin stress, including photo-aging (sun damage).

INGREDIENTS

Alcohol, Water (Aqua), Carbomer, Peg-40 Hydrogenated Castor Oil, Vitamin E, Leptospermum Petersonii Oil (Lemon Tea Tree), Aloe Barbadensis Leaf Extract (Aloe Vera), Peg-7 Glyceryl Cocoate, Aminomethyl Propanol
